## New murals celebrate community

Photo by Sheldon Birnie  
Ryan Francis, principal at Bertrun E. Glavin Elementary (166 Antrim Rd.), is excited about the new murals that were installed on the front wall of the school. The three murals, which were created by artist Annie Bergen and the students of the K to 5 school, are a celebration of community.

## Welcoming the community

Valley Gardens residents may have noticed the colourful new murals welcoming visitors to Bertrun E. Glavin Elementary (166 Antrim Rd.). The murals are of an Artists in Schools grant that former principal Brian Locken applied for last year. Starting in January 2019, artist Annie Bergen worked with students from each class in the K to 5 school to create paintings that celebrated community.

“The kids were very excited to work on the project,” Ryan Francis, current principal at Bertrun E. Glavin, said of the murals, which went up on the school on May 10. “I think this mural expresses what we do here. This is what community means to the kids here.”
